

## FASHION TECHNOLOGY INSTITUTE

## Introduction

Fashion Technology is a very specialized course and offered only in few institutes across India. This course is designed to train students in the garment manufacturing technology with emphasis on best practices in Apparel Production. It provides experience on apparel manufacturing technology with exposure in hands-on training and industry exposure.

After completion of the course the candidates can find excellent placements in garment, jewelry and leather industry as fashion designers, illustrators, merchandising executives, fashion coordinators, etc. Export houses, garment store chains, textile mills, boutiques, jewelry houses, leather companies and fashion show organizers also look for such candidates.

## Market Potential

India is a nation with a prehistoric clothing design tradition, yet an emerging fashion industry. India's fashion industry is very, very young although to see it today, as published and showcased in national newspapers and magazines, that is hard to imagine. The first professional fashion show held in this country was just over 20 years ago.

The Indian fashion industry is expected to reach $\$ 400$ million in a couple of years with vigorous $10 \%+$ growth year over year. The reason India's fashion industry will have a bright future is that India has a large young population. This combined with increasing disposable incomes has led to an increase in consumerism. The clothing made by India's elite fashion designers is not only beautiful, but unique, exquisite, and one-of-a-kind. It's the time which will tell when the fashion industry will sooner or later break that international barrier.

## Cost of Project

| Particulars | Amount (Rs. in Lakhs) |  |  |
| :--- | :---: | :---: | :---: |
| Land (own) | - |  |  |
| Land development cost | 10.00 |  |  |
| Civil works and Buildings (@1500/sqft) | 800.00 |  |  |
| Computer | 17.55 |  |  |
| Intangible Asset | 2.30 |  |  |
| Books | 5.00 |  |  |
