

## TATTOO PARLOUR

## Introduction

A tattoo is a type of body alteration that involves putting ink, dyes, and/or pigments into the dermis layer of the skin to create a design. Tattooing is the art of applying tattoos. All art practice has some underlying ideology, and this is especially true in tattoo art. Skin creations represent fundamental beliefs to the individual wearer or group. Tattooing is practiced by cultures from east to west, by both men and women, and by nearly all ages. The attraction is obvious: To decorate one's body with permanent art is a powerful statement, not easily erased or altered, so the act itself is almost as intriguing as the image itself might be.

Tattoos are divided into three categories: purely decorative (with no specific meaning), symbolic (with a specific meaning relevant to the wearer), and pictorial (with a specific meaning important to the wearer) (a depiction of a specific person or item). In addition, tattoos can be used for identification, such as branding cattle using ear tattoos.

## Market Potential

The market size of the Tattoo Artists industry is expected to increase $23.2 \%$ in 2021. The market size of the Tattoo Artists industry in the US has grown 9.2\% per year on average between 2016 and 2021.

The Indian tattoo industry is bright and booming. India's tattoo industry is burgeoning, estimated to generate around Rs. 20,000 crore every year. Right from beachside stalls at Goa to professional studios at malls, the Indian tattoo industry is bright and booming. Tattoo has opened its doors in India and is immediately stirring up the international tattoo scene.

## Assumptions

1. For SME unit having yearly turnover upto 500 lakhs, the Nayak Committee recommendation has been implemented by all the banks. Hence, we have worked out the funding requirement accordingly.
2. Revenue of such units is majorly impacted by the selection of business location. The entrepreneur should examine all business aspects while selecting this location. Normally, tattoo parlour is established in a prevalent market area. Thus, we have assumed that the unit has been set up in a market area.
3. The shop premises of this unit is taken on lease. 150 sq . ft . is the proposed area which shall be spacious for tattoo making.
4. DSCR is high because the term loan component is lesser than working capital requirement. We have not considered repayment for working capital and it is running on a continuous basis.
